SOURCE Meditsinskiy Rabotnik, No 9 (821), 1949. (Information requested.)THE COMMUNITY HOSPITAL IMENI L. N. TOLSTOYA. Luganskiy, Spec Corr
Yasnaya Polyana

The various medical and health facilities were severely damaged by the German invaders, but by now the major part of the services has been restored; in fact, much new building and modernization is taking place. The hospital has been equipped with nickel-plated beds and high-grade blankets, and carpets have been laid in the halls.

The dispensary is now ready to give X-ray service to its patients. In addition, it is capable of giving complete physiotherapeutic service and also has a completely equipped laboratory.

The Ministry of Public Health RSFSR in Tula Oblast, and the various Party organizations are cooperating splendidly with the communal medical staffs.

The medical group under the jurisdiction of N. D. Ubornov has conducted a mass examination of the farmers around Yasnaya Polyana as well as the miners employed by the Shchekiningol Mines. The dispensary has 60 beds for patients suffering from bone tuberculosis.

A surgical department under the leadership of I. P. Chulkov will be established shortly. This group now has four doctors specializing in four different fields.
